

Member of James Fisher and Sons plc

QHSE Engineer

Location: Dyce, Aberdeen

Salary: tbc (in the region of £25k+)

Reporting to: QHSE Manager

Scope of Responsibility: RMSpumptools operations in Malton and Aberdeen

Core Job Responsibilities

- Support the review, design and implementation of an integrated BS EN ISO 9001:2008 Quality management system, BS OHSAS 18001:2007 H&S management system and BS EN ISO 14001:2004 Environmental management system;
- Provide internal advise to on-site colleagues in relation to QHSE requirements;
- Provide external support to customers in relation to QHSE requirements;
- Conduct internal process audits in accordance with the Internal Audit programme;
- Conduct external suppliers audits in accordance with the Supplier Evaluation programme;
- Support the QHSE Manager in investigation of product and process non-conformances in Aberdeen;
- Provide support to Project teams in relation to QHSE and documentation requirements;
- Site representative for HSE in Aberdeen;
- Conduct planned HSE activities (fire alarm tests, fire drills, risk assessments, fire safety analysis).

Critical Requirements:

- Experience and knowledge of maintaining and operating management systems to the guiding standards (BS EN ISO 9001:2008, BS OHSAS 18001:2007 and BS EN ISO 14001);
- Experience of conducting internal process audits and external supplier audits;
- Completed a recognised Internal QMS Auditors training course;
- Basic understanding of engineering drawings and technical specifications;
- Experience of writing operational procedures and working instructions.

Personal Attributes

- Attention to detail;
- Show an eagerness and desire to implement continual improvement as a core business policy;
- Excellent analytical skills including knowledge of MS Office programmes (Word, Excel, PowerPoint);
- Ability to work on your own and to specified timescales and project plans;
- Some travel and overnight stays will be required;
- Ideally have achieved at least ACQI membership of the Chartered Quality Institute
